## **PROFILE**

- Considerable experience within the electronic manufacturing industry
- Comprehensive knowledge of the principles, practices, techniques used in electronic assembly, fabrication, and inspection
- Highly organized, resourceful, motivated and reliable, with a great eye for details
- Eager to learn with ability to gain new knowledge quickly
- Able to work under pressure, performing multiple tasks simultaneously to produce quality product
- Able to understand and carry out oral and written directions in order to accomplish assigned tasks in a timely and effective manner
- Eager to learn, with ability to gain new knowledge quickly
- Highly motivated, resourceful, and very reliable

## **WORK EXPERIENCE AND SKILLS**

### **Electronics Inspector**

- Inspected electronic components and assemblies to ensure correct component selection and placement, wiring and soldering quality, proper pin insertions, location and diameter of plated holes, breaks in circuitry and line spacing in printed circuit board and other specified requirements while products are being assembled or fabricated
- Checked final assembly for finish, labeling and packaging methods
- Checked mechanical dimensions and performed "go-no-go" electrical tests
- Identified and marked acceptable and defective assemblies and returned faulty assemblies to production for repair
- Collected, recorded and summarized inspection results
- Investigated equipment malfunction and instruct on proper operation

### **Electronics Assembler/Fabricator**

- Soldered and manually assembled various electronic components such as resistors, diodes, transistors, capacitors, integrated circuits, switches, wires and other electronic parts
- Assembled microcircuits requiring fine hand assembly, the use of microscopes and adherence to clean room procedures
- Installed, mounted, fastened, aligned and adjusted parts, components, wiring and harnesses to subassemblies and assemblies using hand and small power tools
- Operated automatic and semi-automatic machines to position, solder and clean prescribed components on printed circuit boards
- Operated and monitored process equipment including automatic and semi-automatic machines to fabricate electronic components
- Soldered, cleaned, sealed and stamped components and perform other process operations as specified

## EDUCATION

- **Qualified Electrical Worker Safety Training (2 day course)** Enrolled Aug 2010  
Sigma Electronics, Winnipeg, Manitoba
- **Introduction to Canadian Electrical Codes and Regulations** June 2010  
Manitoba Electrical Association
- **Advanced Blueprint Reading** April – May 2010  
Seine River Technical College, Winnipeg
- **Basic Blueprint Reading** March – April 2010  
Seine River Technical College, Winnipeg
- **Bachelor of Science in Electrical Engineering (6 credits short of completing)** 2006 - 2009  
University of Siquijor, Manila, Philippines
- **High School Diploma** 1992 - 1997  
Manila Christian Academy, Manila, Philippines

## EMPLOYMENT HISTORY

- **Electronics Inspector**, Conception Integrated Devices, Manila, Philippines 2002 – 2005
- **Electronics Assembler/Fabricator**, Conception Integrated Devices, Manila, Philippines 1998 - 2002

## VOLUNTEER EXPERIENCE

- **Volunteer Builder**, Homes for Humanity., Winnipeg, MB 2010 - present

## ADDITIONAL INTERESTS

- Participating in local soccer team
- Participating/supervising in local church/community center events for young people
- Learning to cook other ethnic cuisines
